

List of Approved Seed Sources for Propagation Purposes in Fiji

All Importers intending to import any propagation materials (including seeds, plantlets etc) must take note of the following:

1. The approved list of seed sources below is for the commonly approved seed commodities available in retail outlets of Fiji.
2. Any seeds not available in retail outlets of Fiji are not commonly approved and must not be imported via this method (but will undergo Import Risk Assessments processes to ascertain import permit conditions to exclude exotic pests).
3. The importer when intending to obtain seeds from any approved overseas seed sources will need to apply for an import permit to BAF (either personal allowance having a limit of collectively upto 250grams seeds or commercial) and fulfill all the requirements stipulated on the import permit to be imported successfully into Fiji.
4. The application form for Plant & Plant Product is: < https://www.baf.com.fj/wp-content/uploads/2015/11/Plant_Plant_Product_Importation_Application_Form.pdf >
5. Any seeds imported without an approved BAF import permit is an illegal import and shall be dealt accordingly with the current laws in that regards.
6. Some species of plant propagative materials are prohibited or illegal (drugs) for importation into Fiji, thus any imported materials must satisfy the import requirements of all other regulatory authorities in Fiji to be successfully released to the importer.
7. Any importer wishing to import seeds and propagation materials:
 - a. from any other supplier not on the below list,

OR
 - b. any types of seeds not commonly imported into Fiji,

OR
 - c. Country not listed below must contact BAF to arrange for and conduct an Import Risk Assessment (IRA) to ascertain the import permit requirements for import.
8. BAF will inform importers via the import permit conditions on the seeds screening period (approx. 3 months or longer; usually dependent on the plants lifecycle) while propagating to screen for exotic pests and diseases.
9. All BAF fees and charges are applicable as per the gazette publication <<https://www.baf.com.fj/fees-and-charges/>>.
10. The approved list of seed suppliers below is subject to change anytime without notice; so please do check back prior to making applications.
