

Immediate Notice – Biosecurity Authority of Fiji

A. New Zealand HPAI Situation

BAF counterpart in New Zealand, New Zealand Ministry of Primary of Industries (NZMPI) officially confirmed that absence statement for high pathogenicity strain avian influenza, H7N6, which was reported last Year and New Zealand remains free of HPAI, H5N1. BAF continuously communicate with NZMPI to safe facilitation of trade between two countries.

B. Resume Trade of poultry products origin from New Zealand under personal allowance:

In this regards BAF will recall the immediate notice that was issued 10th December 2024 and resume importation of poultry products as we facilitated as below,

1. all poultry products allowed to import to Fiji with the personal allowances 10kg per person with supermarket receipt with commercially prepared pack to show that product was originated and purchased from NZ.
2. Allow personal importation of poultry products in commercially prepared packs, maximum up to 50Kg per person with BAF import permit and its conditions.

C. All commercial importation of poultry products will facilitate with BAF import permit and its conditions.
